## MY PORTFOLIO LINK

[Portfolio Site](#)

## SKILLS

- Typescript / React / Redux
- GraphQL
- Nestjs / Node.js / Express.js
- Sequelize typescript (ORM)
- PostgreSQL / MongoDB
- PostGIS
- Next.js (SSR)
- Jest testing
- Material-ui
- Git
- Docker
- Linux (Workstation)
- C++/Java (University)

## EXPERIENCE

### FULL STACK DEVELOPER – VIVID THEORY (CALGARY)

SEPTEMBER 2020 - SEPTEMBER 2021

Developed [HeyAuto.com](#), Currently Canada's largest online Automotive marketplace. The development stack: React / Redux / Typescript / Nestjs backend / GraphQL / and Sequelize as our ORM. We used Postgres as our backend data store. We recently transitioned to Next.js for better SEO and performance for our frontend. My year at Vivid Theory challenged me and taught me about working as a team in a Start-up environment.

### WEB DEVELOPMENT FREELANCER

JANUARY 2018 - 2020

Developing JAVASCRIPT/HTML/CSS/BOOTSTRAP sites for clients. Worked on a few personal mobile apps using Flutter.

### ENGLISH TEACHER – VICTORIA KINDERGARTEN

AUGUST 2018 – JULY 2020

Moved Abroad to China to Teach and experience different cultures.

## EDUCATION

### BSc in Computing 14/01/2015 - 30/11/2017

The University of South Africa

Degree achieved with Cum Laude.

### BSc Honors in Computing 2018-2020

The University of South Africa.

Degree achieved with Cum Laude.

## CHARACTER AND INTERESTS

Studying computer science for me was about having the opportunity to create; innovate and push the limits in a field that is ever evolving. Working in a Start-up for the past year has taught me how to work hard to achieve great things. I have an enthusiasm to learn new technologies, to push myself out of my comfort zone and test my abilities. I gained experience from my peers, managing small teams on projects, utilizing planning strategies to extract the best performance out of myself and my colleagues. I work hard and encourage others to be the best they can be. I love sports, "Go Manchester Utd.", gaming in my free time and spending quality time with my wife.
