EXPERIENCE

WEB DEVELOPMENT FREELANCER
JANUARY 2018 - Current
Developing HTML/CSS/BOOTSTRAP/JAVASCRIPT sites for clients. Deploying on Linux shared-hosting servers. I have developed Mobile Apps using Flutter, Windows applications using C++ and Java during my university studies.

ENGLISH TEACHER – VICTORIA KINDERGARTEN
AUGUST 2018 – JULY 2020
I have been a Teacher in China over the past two years since graduating, putting myself out of my comfort-zone. I have adapted to new cultures and teams, always pushing myself to do the best, be the best and help those around me.

EDUCATION

BSc in Computing 14/01/2015 - 30/11/2017

The University of South Africa

Degree achieved with Cum Laude.

BSc Honors in Computing 2018-Current

The University of South Africa

CHARACTER AND INTERESTS

I am extremely dedicated, driven and have a never give up work ethic. For example, this can be seen in websites that I have tailor made from scratch; my experiences of living in a foreign country, where I was completely out of my comfort zone, but making my time there a success. I am always looking to learn from the people around me and help wherever I can. I am a passionate programmer, constantly looking for ways to improve my abilities and learn new languages/frameworks. If you hire me, you will see that I am a valuable team member, who will enrich your company with my approach to work and positive attitude. My interests are: Technology, PC hardware/building PC's, gaming, shooting drone footage, learning new programing languages, playing as well as watching sport and spending time with family.
